## Press Release

**Yokohama ATC Tires Successfully Conducts On-Campus Placement Drive at Government Polytechnic Madhubani: 26 Students Selected**

**Madhubani, Bihar – March 30, 2024:** The result of the successful on-campus placement drive conducted by Yokohama ATC Tires at Government Polytechnic Madhubani on March 30, 2024, has been announced. A total of 64 students participated in the drive, and 26 talented students have been selected. This selection is a significant step towards empowering women in technical fields and promoting gender diversity in Electronics, Electrical, Mechanical, and Civil Engineering.

The placement drive began with a pre-placement talk, which was addressed by Kurshid Chaudhary, HR, Yokohama ATC Tires. He provided detailed information about the company's CTC (Cost to Company), career development opportunities, work environment, and accommodation. Following the talk, Furshid Chaudhary offered the students an opportunity to ask questions, allowing them to gather important information before the interview process.

The interview process began shortly after, where each candidate was interviewed individually to ensure all students had an equal opportunity. The interviews were conducted in a well-organized and professional manner, assessing the students' academic knowledge, technical skills, problem-solving abilities, and overall potential.

The successful execution of this placement drive was made possible by the efforts of the Training and Placement Officer (TPO), Professor Kumari Shambhavi, and Assistant TPO, Professor Ashish Kumar Jha. They worked in collaboration with the Heads of the Electronics Department, Professor Tasgheer Ehsan, and the Computer Science Department, Professor Shubhash Kumar, to ensure the smooth running of the event.

Principal Shambhoo Kant Jha provided continuous guidance throughout the event, overseeing all necessary arrangements, which contributed significantly to the success of the placement drive. His active involvement and leadership played a key role in making this event a success.
